Skills

LANGUAGES:

C/C++, Python

WEB TECHNOLOGIES:

HTML, CSS, Bootstrap

DATABASE:

MySQL

OS:

Windows, Kali Linux

OTHERS:

Git, Github

Coursework

Data Structures and Algorithm
Pattern Recognition Machine Learning
Cryptography
Web security

Education

2021-2024
B.TECH. IN CE
VIT Pune
CGPA : 8.71/10(Current)

2018-2021
INTERMEDIATE
MM Polytechnic, Pune
Percentage: 95.49%

2014-2017
HIGH SCHOOL
L.T.H.S., Pune

Hobbies

Weightlifting, Powerlifting, Cricket

Experience

Intern | LetsGrowMore

- Build websites using ReactJS
- Learned about JavaScript

Intern | Network Integration

- Worked with MNC's to fix hardware issues
- Learned about multiple Operating Systems

Projects

Pi-Hole Ad-Blocker

- The goal was to block banner advertisements, YouTube ads and many more with keeping track on the network protection using Pi-hole.
- We used Raspberry Pi zero and connected to the access point to block advertisements directly and used Pi-hole as a DNS server.

MovieVerse

- A recommendation tool called Movie Verse compares movies depending on how closely they resemble the user's tastes.
- This recommendation system works with a significant amount of information from TMDB movie database
